Course Objectives	Enriching students' knowledge with information about the development of psychology from its inception as an independent science to contemporary ideas and trends in psychology. In order to understand the different approaches in the interpretation of people's psychic life and to build a critical attitude towards them, the focus is on the main paradigms in psychology, which provide the basis for scientific elaboration of psychic phenomena within its various disciplines.
Course Contents	Development of psychology (structuralism, functionalism, behaviorism, gestaltism, psychoanalysis). Period of development of psychology after the classical psychological schools (phenomenological and existentialist psychology, humanistic, cognitive radical and critical psychology). Development of late 20th century psychology (positive psychology, evolutionary psychology), Psychology today: the six main approaches in psychology (behavioral, psychodynamic, humanistic, cognitive, social-psychological, biological).
